Jack London, Avenger

Timothy Muldowney, Oakland's battling cafe keeper, who made his reputation two years ago by mistaking Jack London for an advertising man and ejecting him from his place of business, has departed for Fresno.

His friends are now wondering whether he left because he wanted to or because of London's wrath. At the time of their meeting London vowed vengence eternal. He declared that sufficient retribution could never fall on the saloonman's head.

London declared that Muldowney took every possible advantage o him and treated h'm in a most disrespectful way. After getting him on the floor and jumping on him, the writer says the saloon man invited his barkeepers and other hired help to join him and enjoy themselves.

Then London had Muldowney arrested and Muldowney had London arrested London declares that he was at a disadvantage in this, because Muldowney was a political factor and that his saloon was located on property owned by Police Judge Samuels who tried the case.

Samuels discharged both men and then London's vengeance began. He took the cover off his typewriter and made Muldowney and Samuels the villians of as villainous a story as was ever written. Then he avenged himself by proxy by beating them up with a big boulder—in the story.

Still London was unsatisfied, and when he left for the east he annonnce that he was still abiding his time. A few weeks later Muldowney's wife sued him for divorce. She said he abused her.

Then the two were reconciled for a month and a second suit was filed, with Muldowney as the plaintiff. A short time later the police department undertook a supervision of the cafes and took down the names of all visitors. This materially handicapped business.

It was not long ago that Muldowney itemized the list of troubles that had followed him since his encounter with the writer.

He had been written up and brutally assautied in a magazine story, his home disrupted, his business had been effected, Last week he disappeared, and it developed later that he had sold his saloon and cafe.

The question is, "Is Muldowney the victim of London's vengence?"

Another question is, "Has Judge Samuels suffered likewise?" Last week the voters of the state voted to take his office away from him.

As the case now stands it would appear that London is some little avenger.—San Francisco Examiner

Will Not Change Text Book

Patrons of schools and purchasers of school books will be interested to know that at a meeting of the state textbook committee at Sacramento on Thursday, October 12th, the following resolution was adopted.

"Whereas, a senate committee is now at work investigating the whole matter of issuing state series text books, with a view of recommendation of modifications therein. and

"Whereas, a special session of the legislature will soon be called that may deal with the laws affecting the same subject, therefore be it

"Resolved, That it would be an impropriety for the Text Book Committee to take any definate action in the adoption of texts or making of new contracts pending the action of these bodies; and be it

"Resolved. That the Text Book Committee proceed to order from the State Printer such supplies of textbooks now in use as may be necessary to furnish the schools for the remainder of the present fiscal year."

This resolution means that there will not be changes at present in the spellers, the primary history, English Lessons No. 1 and English Lessons No. 2.

Pres dential Train in Danger

An Associate Press dispatch from Santa Barbara, states that two packages of dynamite, aggregating thirty sticks, had been placed on a portion of the steel pier of the El Capitan bridge, a short distance north of that city, and was discovered just before the train carrying President Taft passed over the bridge. Twenty-one sticks was found at one place and the balance at another. The explosives were well concealed and each package had a ten foot fuse attached

The discovery was made and prevention of the destruction of the bridge and the possible wrecking of the Presidental train by a Mexican bridge tender. Shortly after two o'clock in the morning, about three hours and a half before the presidential train was due, the bridge tender saw two men walking hastily on the bridge, and when he challenged them they fled. He fired several shots after them. Investigation disclosed the dynamite, and the county authorities were notified.

Taken From Potter's Field

From an unhonored grave in the Potters field the remains of Van Lear Kirkman Droulliard, the man of distinguished Southern family, who was cruelly murdered by L. C. Chisholm in a lonely tent on the ocean front, near Fort Ross, have been exhumed and are now resting in a tomb in Odd Fellows' cemetery, Santa Rosa. The last resting place is also marked with a monument.

Prior to their reinterment, the remains, to which [illegible] skull of the dead [illegible] me that mute evidence at [illegible] ss whereof er in the Super[illegible] set my county, were encl[illegible] my offici sive casket. [illegible] office in

The devotion of [illegible] this ce widow provided the means [illegible] by the body was taken from the county cemetery and given a decent burial.

Mrs. Droulliard who resides in Salt Lake City, was unable to be present when the change was made.

Chisholm, the man who slew him who had been his friend for a mess of pottage in the shape of a $2,000 life insurance policy, is paying the penalty at life imprisonment in Folsom prison.

Californians are to get another chance to see the old battleship Oregan, as orders from the Navy department provide for a cruise of that vessel down this coast the latter part of this month. The Oregon will meet the cruisers Raleigh and Cincinnati, both veterans of the battle of Manila, who have been in reserve at Mare Island for the past six years. The trio of Spanish American war veterans will then proceed to San Pedro, where they are to be inspected by Rear Admiral Chauncey Thomas, commander in chief of the Pacific fleet.

Wright's New Flyer Tried

Orville Wright was in the air 15 minutes Monday with a new aeroplane, which he and his brother Wilbur are working on, expecting to make aerial flights as safe as automobile trips.

The wind was too light for a test, but blowing 14 miles and hour, he ran his glidder 100 yards on rails and then assisted by the wind gradually raised it to a height of 200 feet. He made no attempt at height or speed records, but devoted his time to tests of ability to alight. He made several stops and came to earth with the grace of a bird without any noise.

While the machine did not prove to be all that was expected of it, Wright sai the main thing had been accomplished, the principle being worked up on was proven correct and it will now be worked out in tail.

FRIDAY, OCTOBE 20, 1911

The Editor of the San Francisco Star does a Solome dance and kicks his feet skyward in jubilation over the outcome of the election returns Says the only way to express his feelings is to use dynamite. We're with you, brother, and though we may not trip as light a fantastic toe we are hoeing it down with both feet and rejoicing also for the reason that the people have come into their own.

Taft Passes in Review

President Taft passed in review in California last week. Unlike, on previous occasions Taft was the one being reviewed instead of sitting on a prancing steed and watching the people parade. And, did he pass muster? We think not. His bowing head and gracious smile could not win back the votes his veto lost, and next presidential election will stamp him a hasbeen and boost La Follette into the chair in his stead.

The Cave Man Votes

The original Cave Man voted in Berkeley. A watcher at one of the polls noticed a ballot which had been voted blank with the exception of a solitary "X" against Woman Suffrage! The Cave Man had discovered the modern way of beating "his woman" into subjection. Let us hope he has returned to his gloomy cavern never again to emerge. But God pity the wife and children of so narrow and ignorant a human bibed!—San Francisco Star,

Encouragement

I used to work for Mr. Knox, a farmer who had lots of rocks. I left my couch at break of day and toiled until the dusk was gray. And when the evening meal was o'er I had to do chore after chore; I had to feed a million sows, and milk about a million cows. And never once did Mr. Knox remark to me: "Well done, old Sox!" He never cheered my dismal days by handing out a word of praise. What wonder, then, that in my ire, I set his house and barn onfire, and swiped a wagon load of straw, and carried off his mother-in-law? I went to work for Mr. Deans, and plowed his corn and hoed his beans; and when I came in from my toil, all plastered o'er with sweat and soil, he always had some kindly word; he called me a looloo, peach and bird. And so my labor was delight, and, though fagged out and worn at night, I trotted blithly out of doors and gaily did a million chores. If all employers only knew how much a word of praise will do, the sullen workmen that we see would do their little stunts with glee.

—Walt Mason.

Ely Killed

Eugene Ely, the daring aviator, who made many daring flights and landed on the warship in San Francisco last January, made one too many flights at Macon, Ga., yesterday and plunged 50 feet to his death.

Just before dying he said "I lost control; I know I am going to die."

As he completed a circle in his flight he made a dip and the crowd of 25,000 cheered, but as he neared the earth he tried to leap from the mechine as he crashed to the ground.

Arrested in Santa Rosa

In Santa Rosa yesterday Dr. Lawton was arrested on suspicion of setting several fires in Santa Rosa the past week.

Several alarms were sent in during the past week and in nearly every case the Dr. was seen near the conflagration. In some cases he was seen quietly slipping away.

The Dr. does not seem to know just what he has been doing and admits that he indulges in intoxicants, while those who know him think he is subject to the use of drugs.

A Tribute

On Rosary Sunday, about two occurred the death of Mrs. Rose Lane, at her little country home in Glen Ellen.

Surrounded by her children and loving relatives she resignedly closed her eyes and passed to the great beyond.

Occasioned by her death a wave of sadness swept Glen Ellen to its very heart's center. Loving friends wept with sorrowing relatives, bestowing upon her every tribute of affection ere she was laid in her last resting place in Mountain cemetary.

Mrs Lane was the widow of the late Charles Hollingsworth Lane, of Washington, D C., a daughter of John O'Donnel, and a niece of General Columbus, of Baltimore.

As Miss Rose O'Donnel she was considered one of the most beautiful society belles in Marvland. Her family ranks among the highest of southern aristocracy.

Mrs. Lane was beloved by all who knew her, young and old, for her many noble qualities; her sweet unassuming manner, her smiling, happy disposition and her tenderness and devotion to her children.

Her work was well done, and if the minds of those who loved her in life are prone to brood in sorrow over her death, the conviction dawns sweetly and without a doubt, the conviction of the immortality of her waiting soul, beautiful with sublime peace and trust. God's finger touched her and she slept,

To wake at home where angels dwell
In happy realms above,
Where holy anthems sound and swell
The praise of endless love.
A world where souls in perfect peace
Rest from the toils of this,
Where pain and tears and sorrows cease,
Exchanged for endless bliss.

Wil Organize Here

Tuesday evening of next week will make a new era in the Moose lodge in Sonoma, when a charter will be accepted and the members will begin scouring the woods for new members. For some months the local members have been fighting for a charter for Sonoma and are now assured that the same will be given

At the meeting mentioned the first prelimary steps will be taken and each and every member is urged to be present.

It is expected that at least fifty candidates will be initiated into the order, thus making a membership in this valley 170

Meeting Postponed

The meeting of the Men's League scheduled to be held in Castagnasso Hall last evening, was postponed to October 24th, to be held in the same hall. The subject to be discussed will be "Better fire fighting apparatus for Sonoma, including the discussion of a proposition for a municipal water system, adequate and especially for fire purposes."

This is one of the vital questions of Sonoma and the real bone of contention and all members of the league should be present and assist in thrashing the matter out.

Shannon is Suffering From Alcoholism

State Printer W. W. Shannon, whose office has been undergoing an investigation, as the result of charges of graft, was taken to Livermore by Sheriff Reese of Sacramento county and placed in a sanitarium Sunday night to be treated for alcoholism. Dr. Robertson says he had no intimation of the official's arrival until the sheriff appeared with him in an auto direct from Sacramento He said Shannon was there simply to get away from liquor, which Shannon says has been making a fool of him.

Entertainment and Bazar

On Friday evening, November 3, in Union Hall, a clever comedy, "The Model Wife," will be presented by a number of well known townsfolks, for the benefit of St. Barbara's Guild. The new orchestra will play several selections, and also furnish the music for the informal dancing which will follow the dramatic program. All sorts of useful and fancy articles will be for sale, also candy, ice cream and coffee, while the choir boys will hold full sway over a well stocked country store, where boys will find all sorts of long needed things.

Slaughter Men, Women and Ch Idren

Shanghai, Oct. 19—Accounts of the revolutionary attack on Wu Chang as given by refugees arriving here today emphasize particularly the massacre of the Manchus in that city. In the slaughter neither age nor sex was regarded, and it is doubtful, the refugees say, whether a single representative of the Manchu race was left alive.

Similar slaughter of the Manchus followed in Hankow and Han Yang when those cities fell. It is estimated that many thousand of manchus have been killed.

The refugees declare that the whole Yangtse valley, from Hankow to Shanghai, is in the hands of the rebels, with the possible exception of one or two of the larger cities to which provincial officials have retired with their available troops. It has been insistently stated here that Kiu Kiang, 150 miles below Hankow, is under revolutionary control.

Turin Exposition

Robert Newton Lynch, of Petaluma, manager of the California Development Board and Special Commissioner of California to the Turin International Exposition, who returned a few days ago from Europe, brought back with him the tidings that the Italian Government is greatly interested in the Exposition of 1915.

"Senator Tomaso Villa, president of the Turin Exposition, was greatly pleased with California's exhibit," said Commissioner Lynch, "and pledged his heartiest and personal interest in making the Panama-Pacific Exposition a great success.

"At the Turin Exposition, a splendid opportunity was given for the advertising of San Francisco's fair. A great sign, advertising the fact that 90,000,000 lire had been subscribed for the great event and that the world was invited to attend it, was given the most prominent place in the exposition. After leaving Turin I had the privilege of visiting every European capital, and in conversation with all of the United States Consuls and officials of various governments and had the privilege of communicating the first definite information they had received regarding the Panama-Pacific International Exposition.

"California is to be congratulated upon the opportunity of being present at the Turin Exposition, which has furnished the basis for wide European advertising and has made a very favorable impression upon several million people who attended the event.

Fire at Glen Ellen

What might have been a serious fire was checked in Glen Ellen on Wednesday last when a grass fire was fought in the pasture adjoining Dr. C. C. O'Donnel's country home. With supreme effort the valient fire fighters fought the flames, and after several hours' work extinguished them. At one time it was thought impossible to save the O'Donnel residence.

Seasonable Poultry Notes

As soon as the breeding season is over, separate the males from the females, and keep them separated until eggs are wanted for hatching again. Outside of the breeding season a male bird is not necessary, but is a positive nuisance in a flock of hens, worrying and harrassing them continually. The young stock should also be separated as soon as the cockerels begin to crow. Both cockeal and pullets will do better than it allowed to run together.

There is nothing better than poultry manure for most garden crops. Don't allow to go to waste this valuable soil renewer, and then buy fertilizer.

Liberal applications of kerosene oil to every part of the poultry house thoroughly cleaning house and yards and burning trash is the only way to get rid of chicken fleas. Carbolated vaseline applied to fowls will rid them of fleas.

Confiscate Fish Nets

F. G. Sanborn, M. J. Connell and F. M. Newbert began an action in the Superior Court on Thursday against two Nets, etc. They are the fish and game commissioners, and the two nets which are made defendants, were captured by Deputy Game Commissioner Willis J. Moore. They are of five and one-half inch mesh, and if the owner or the person who placed them in the waters could be found, he would be made the defendant instead of the inanimate fish nets.

The offending nets were found in Hudeman slough. The matter will come up before the Superior Court on Monday, November 16, and District Attorney Lea will prosecute the case against the nets.

Wed in Santa Rosa

In Santa Rosa last Saturday occurred the marriage of Miss Mamie M. Block, of El Verano, to Maxwell C. Coutts, of Kenwood. The happy couple were united by Rev. L. R. Fulmer.

Miss Block is well known in this valley and her host of friends wish her joy in her married life.

Mr. Coutts is a rising young man of Kenwood and to him is extended congratulations.

Given Six Months

Last Friday Floyd M. Cook, who had been doing chores for Mr. Goodman on Broadway, went to the store of S. D Glaister and made several purchases of eggs and groceries and had them charged to Mrs. Goodman and then proceeded to re-sell them around Sonoma.

Upon learning the facts S. D Glaister swore out a warrant and the man was arrested on Saturday and tried before Judge Campbell who sentenced him to six months in the county jail Monday.

He was taken to Santa Rosa Tuesday by Constable Ryan.

Base Ball Notes

BY A. FANN

The Base ball game played in Santa Rosa last Sunday afternoon between the Santa Rosa Moose and the Graton Club resulted in a victory for the Graton nine by a score of 7 to 1.

The game was the second of a three game series for the amateur championship of Sonoma county, and incidentally, the prize goat of Graton.

Al Jansen, of the Sonoma Giants, pitched for the winners and held the Moose to three scattered hits. The losers got their lone run as the result of an error by the Graton infield

As the Moose have already lost two contests, it will not be necessary to play the third game.

Graton will challenge the Petaluma semi-professional club to play a series in the near future.

The Sonoma Giants have disbanded for the season. The Boyes Water nine will probably play some San Francisco club on the Sonoma diamond Sunday afternoon.

Below is the pitching record of Al. Jansen, the star twirler of the Sonoma Club, for the season of 1911. Jansen pitched nine games for Sonoma. In the first column are the names of the contesting teams and the score W stands for won and L for lost. S. O. stands for number struck out and H. A. for the number of hits allowed.

Jansen will try out with Oakland next spring.

An Adjourned Meeting

The City Council held an adjourned meeting in the City Hall on last Wednesday night, and opened bids for removing the concrete walls of the Poppe store.

Only one bid was received on the same, and the contract was let to the sole bidder, L. Breitenbach, for the sum of $157, and the City Attorney was instructed to draw up a contract allowing two weeks to complete the job.

At the same meeting Ordinance No. 120, relating to sewers, drains, etc., was read for the second time.

GOLD

Was produced in Amador county, California, during the year 1909, according to the latest Government report. The DANE-MITCHELL GOLD MINE is ready to add to this enormous output.

This mine, located one mile north of Pine Grove, Amador county, in the heart of one of the oldest and greatest gold-producing districts in the great Gold State of California.

We have already spent $35,000.00 of our money on this mine before asking the public to invest.

We need $30,000.00 more to build a cyanide plant and complete our mill. To raise this money we offer 60,000 shares of the capital stock at 50c each, par value $1.00 per share

This is a low figure, as our entire capitalization is only $250,000.00.

Our property will stand the closest investigation, and we offer you a

Don't You Feel Well?
Ache All Over?

Feverish? Feet as though your blood was hot? Cold feet? Backache? Those warning signals which indicate that "a bad cold" or a fever is coming on? Don't get discouraged, but go home. On the way, stop in any drug store and get Dr. Pierce's Golden Medical Discovery. When you get home, take a hot bath or a hot foot bath, go to bed, cover up warm—take a dose of the "Golden Medical Discovery," in the morning another dose, and you will feel better. You will not have to continue many doses before you are well. If you still persist in the use of Dr. Pierce's Golden Medical Discovery you will find improvement in your general constitution, appetite and blood—your liver will become active and throw off the poisons from the system.

Get as near to Nature's way as you can There's a reason. Vegetable foods are usually good for the health. The human economy digests and assimilates them best. In disease, a remedy made up of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Mandrake root and Bloodroot, such as Doctor Pierce's Golden Medical Discovery, is positive yet safe, is assimilated in the stomach and taken up by the blood, therefore it is the most potent means which can be employed for the regaining of lost health.

Microbes snatch at us from every corner They mean to kill or eat up if they can. They are formed by millions on everything we eat, drink and wear. The air is alive with them. Medical science has proven in the past few years that nearly every disease is a germ disease. Such disease germs enter into the blood in two ways, either through the lungs or stomach. If the blood is pure and rich, the liver and stomach in healthy, active condition, the germs of disease cannot find a resting place there to multiply. Diseases of the lungs, bronchitis and consumption, grip and pneumonia, are very apt to spread through a factory where there is much fine dust in the air. The lungs become irritated and the germs find a fertile field for growth. Extreme weakness, feelings of nervous exhaustion, coughs and colds are the warning signals which should be heeded. One should put the system in the very best possible condition right away. Rid your body of the poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Doctor Pierce's Golden Medical Discovery makes *rich, red blood*—by increasing the red blood corpuscles. There is no alcohol in this great tonic to shrivel up the red blood corpuscles. An alterative extract, made only of native medicinal roots, it goes about its work in nature's way. Only good can come from its use, as it invigorates and tones the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood.

"I am a firm believer in Dr. Pierce's Golden Medical Discovery," writes Joseph Napoleon Herbert, Chairman Board of Relief, of 293 St. Paul Street, Montreal, Quebec. "Find that it has been of practical value to a number of men in my employ. They are especially exposed to inclement weather, and often the colds contracted run into pneumonia, stomach trouble, or kidney and liver disease. However, since we have known of the value of 'Golden Medical Discovery,' there is much less sickness, as this medicine seems to keep the blood in a healthy, active condition, and to ward off colds and all other diseases. It is a very fine tonic for a run-down system. I am pleased to acknowledge its worth."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the **Original Little Liver Pills**, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

RESERVE HORSES FOR WAR.

Switzerland's Method of Preparing For Rapid Mobilization.

In Switzerland the state is part owner of horses used by reserves. It purchases a remount at three and a half years old, and the soldier pays half the cost of the horse to the government, together with the difference between its cost and the price that the horse fetches at auction, for all horses are sold by auction to the men.

After every year of training the government refunds one-tenth of the original half cost to the man, and at the end of ten years the horse becomes the absolute property of the soldier. In this manner the soldier is not only always well mounted, but as he keeps his horse with him at his home his mobilization problem is of the simplest nature.

The average price of these Swiss troop horses is about £45, says Baily's Magazine, and as most of these horses are imported from Ireland and north Germany their price is considerably higher than it would be in Great Britain. Thus the state secures the services of a horse for an annual outlay of about £4 10s. But there are certain other expenses which must be included in this estimate, such as the cost of the establishment for remount depots etc., which raises the total cost of horses for the Swiss government to about £8 12s. a year.

Character Shown In Work.

A foolish person builds foolishly, and a wise one sensibly, a virtuous one beautifully and a vicious one badly. If stonework is well put together it means that a thoughtful man cut it and an honest man cemented it. If it has too much ornament it means that its carver was too greedy of pleasure if too little that he was rude or insensitive or stupid or the like. A man may hide himself from you or misrepresent himself to you every other way but he cannot in his work. There be sure you have him to the utmost, all that he likes, all that he sees, all that he can do—his imagination, his affection, his perserverance, his impatience, clumsiness, cleverness, everything is there. If the work is a cobweb you know it was made by a spider, if a honeycomb by a bee, a wormcast is thrown up by a worm and a nest wreathed by a bird, and a house is built by a man worthily if he is worthy and ignobly if he is ignoble. And always, from the least to the greatest, as a thing made is good or bad so is the maker of it.

Animals' Play Is Exercise.

The relaxed rhythmical movements so common among animals at play, the gamboling of lambs, the play of kittens and many similar animal activities, are imitated by man in the primitive dances which form so large a part in the social and religious life of all aboriginal peoples. These motions of leaping, swinging, swaying and twisting of the body have, all of them, a most intimate and powerful influence upon the body's activities, organic and muscular. Rolling is a form of exercise which is a favorite with many animals and is especially practiced for the purpose of relieving fatigue. Rolling is peculiarly enjoyable and grateful to the animal because it provides not only relief for the tensed muscles, the depleted organs and the slow moving circulation, but because as the animal rolls the firm pressure of the ground upon his body constitutes a most effective and agreeable massage.

Hearses After Night.

There is one kind of vehicle that neither the oldest nor the youngest inhabitant has seen on the street at night, or, if he has seen it at all, only infrequently. That is a hearse. Every other kind of conveyance used by modern man is driven about the streets freely after nightfall—the hearse alone comes under the curfew law. Early hours seem to be imposed upon that somber carriage by common consent. The public doesn't like to see it after dark, and coachmen don't like to drive it. No doubt there are hearses that are compelled by the exigencies of funeral arrangements to come home at unseasonable hours, but when forced to an infringement of the unwritten law they proceed through quiet streets where they will be least likely to wound the sensibilities of the superstitious.—New York Herald.

Maund and Maunder.

Neither maund, a basket, nor maunder, to whine or grumble, is obsolete. Both are still in common use in South Notts and Leicestershire, at any rate. The former is used only, however, of a particular kind of basket, used for carrying butter to market. The basket is nearly square in shape and has two lids opening from the middle part, where the handle is, and it is called the "butter mawn" (maund). Maunder is usually heard in such sentences as "What are you maundering at?" A Northumbrian will say, "He's a maundering old fool," when the man of whom he is speaking strings words together in a senseless sort of way somewhat akin to maudling.—London Notes and Queries.

The Color of the Ermine.

It is a popular idea that the ermine sheds its brown summer coat and that on the approach of winter a covering of snowy white fur takes its place. This was a natural conclusion, as a possibility of a change in the color of the fur had not occurred to scientists. Experiments, however, have been made, and the brown coated ermine has been placed in a very low temperature. Almost immediately a change was visible in the color of the fur, and without shedding the creature became snowy white.

BREVITIES

Mandamus proceedings have been commenced in the superior court of Mendocino county against the county auditor to restrain him from paying the claims of the men who composed the election boards at the recent election held under the Wylie Local Option Law in Supervisorial districts in that county. A number of irregularities are alleged in the manner of holding the election, the main one being that the proclamation did not set forth the purpose of election.

Averts Awful Tragedy

Timely advice given Mrs C Willoughby, of Marengo, Wis., R. No 1, prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote "and the awful cough has almost gone It also saved my little boy who was taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and $1.00. Trial bottle free. Guaranteed by all dealers.

The courts of New York are investigating the records of applicants for citizenship. Out of 197 applicants in court in one day, over fifty failed to pass. As each candidate presented himself, Assistant United States Attorney Charles Smith read a report on his case by the men of the secret service. One of the candidates had just been released from Sing Sing penitentiary after having served a sentence for complicity in a Black Hand murder.

Is the World Growing Better?

Many things go to prove that it is. The way thousands are trying to help others is proof Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufers everywhere to take them. "For years I suffered with stomach and kidney trouble, she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see 50c at all dealers.

The members of the Board of Supervisors of Sonoma county are to make a tour of different sections of the state to inspect recent methods of road building, particularly in Sacramento and Stockton sections. Some important new road building is to be carried out in this county, where a number of road districts are planning to issue bonds for road building purposes in their territories. The coming of the State highway is serving as a great impetus to meet it with lateral highways that will be a credit to the county.

Foley's Kidney Remedy vs. a Hopeless Case.

Hon. Ark. J. E. Freeman says: "I had a severe case of kidney trouble and could not work and my case seemed hopeless. One large bottle of Foley's Kidney Remedy cured me and I have never been bothered since I always recommend it." James McElney's Model Pharmacy.

A Medicine that Gives Confidence

Is Foley's Honey and Tar Compound Mrs. T. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes: "For a number of years my children have been subject to coughs and colds. I used Foley's Honey and Tar Compound and found that it cured their coughs and colds, so I keep it in the house all the time." Refuse substitutes Jas. McElney's Model Pharmacy.

From a northern Sonoma county friend of Judge Emmet Seawell has received a souvenir in the form of a copy of the first Great Register printed in Sonoma county in 1869 It is certainly a curiosity. Among the names on the old register are those of many men who are now numbered among the pioneers, and are still alive, while others have passed to the Great Beyond.

Take Your Common Colds Seriously

Common colds, severe and frequent, lay the foundation of chronic diseased conditions of the nose and throat, and may develop in bronchitis pneumonia, and consumption. For all coughs and colds in children and grown persons, take Foley's Honey and Tar Compound promptly. Jas. McElney, Model Pharmacy.

Do you know why men are voters? The barons of England were the first voters, because they furnished the money that supported English wars. Later the barons and smaller nobles voted. Then the nobility and rich merchants voted. In many countries of the old world women voted because they held property.

After exposure, and when you feel a cold coming on, take Foley's Honey and Tar Compound It checks and relieves. Use no substitutes. The genuine in yellow packages always. James McElney, Model Pharmacy.

Transcontinental railroad companies have granted deciduous fruit shippers a reduction of from $1 60 to $1 15 per hundred pounds for all shipments to Birmingham, Ala. according to advices received by the California fruit distributors. The reduction opens a new market for California fruits, as the old rate prohibited shipment into many southern cities.

New York's Working Girls.

Before the great arc lights have begun to fizz and glow processions of work girls, of shopgirls, of professional girls, have passed up and down this great avenue of the city, which in variety of interest and in claims to one's attention forms a strong rival to the Paris boulevards.

These young women are typical of New York and indeed of the whole American continent. In independence, in fearlessness, in ability to act and think for themselves, they are clearly daughters of the new world, but in the taste and elegance of their clothes there is something of the Parisian spirit, of that peculiar faculty for combining colors and blending effects which is certainly the heritage of the "ouvriere" and yet seems by some mysterious means to have become wafted across the broad bosom of the Atlantic. You feel an atmosphere of well being, of solid contentment, prosperity and self esteem about the common people in the States. This is typified by these well gowned, bright and pleasing young women who carry out so large a part of the daily routine of Uncle Sam. You see no dejected countenances. Why be dejected when you have the chance or at least the sweet illusion of being one day called to the highest destinies of the country?—Cor. Pall Mall Gazette.

Illustrious Shoemakers.

Shoemaking is a calling which has given the world some very great men. One authority asserts that the majority of cobblers have exceptional brains, that their attitude when stooping over their work tends to a cranial development in the part where the intellectual faculties are seated. Some one has written a book on illustrious shoemakers. In it are Sir Cloudesley Shovel, Gifford the Terrible, Bloomfield, author of the well known "Farmer's Boy," Carey, the orientalist; Admiral Myngs, George Fox, founder of the Society of Friends; John Kitto, the Biblical scholar, and Sturgeon, the electrician. The list of illustrious shoemakers runs into scores.

Rocks That Float In Water.

A geologist who is well up in his business can name a dozen or twenty different specimens of rocks and minerals that have less specific gravity than water and which will, if tossed into that element, float on the surface. Hubelite is one of the best known representatives of that class. The common pumice stone is another example. The rock with the very least specific gravity known is damari, a substance found in an extinct volcano in Damaraland. Its atomic weight is .5, or exactly one-half that of hydrogen.

The Sum of Genius.

Men give me some credit for genius. All the genius that I have lies just in this: When I have a subject in hand, I study it profoundly. Day and night it is before me. I explore it in all its bearings. My mind becomes pervaded with it. Then the effort which I make is what people are pleased to call the fruit of genius. It is the fruit of labor and of thought.—Alexander Hamilton.

Teacher—Now, remember, Nellie that anything you can see through is transparent Can you name something that is transparent? Small Nellie—Yes, ma'am; a keyhole.

Value of Fat.

The popular view of the close connection between fat and good nature and weight and balance is not wholly without rational foundation. Fat, unpleasant and stodgy as it is, is one of the most valuable tissues in the human body, and any man who reduces his share of it below a certain reasonable level not only takes the smooth edge off his temper and balance off his powers of judgment, but exposes all of his higher tissues, notably the muscular, nervous and secreting, to danger of both starvation and disease. A moderate cushion of fat is one of the best buffers and bucklers against the "slings and arrows of outrageous fortune," whether in the form of disease germs or in strains upon endurance. The man who makes himself into a lean and hungry Cassius even with the best of intentions is very apt to get himself into a state of both mind and body where he is more fit for treason, stratagem and spoils than for comfort, wholesomeness and a long, happy life. —Dr. Woods Hutchinson in Outing.

A West Indian Fish Dish.

A novelty to the jaded palate and a delightful luncheon or supper dish is made of equal quantities of potatoes and fish, halibut or cod preferred. Butter well a deep baking dish and first put in a layer of breadcrumbs, then a layer of sliced onions, then a layer of the fish. Cut in fairly small pieces and entirely free from skin and bones. Season well and repeat until the dish is nearly filled. Sprinkle each layer with small bits of butter. Now pour over it all a pint of tomato ketchup and finish with a layer of buttered breadcrumbs. A layer of sliced tomatoes may be put in and will improve the flavor. Bake in a very slow oven for at least four hours and baste three or four times with a mixture of vinegar, flour and water, watching it carefully to prevent scorching. This dish has an unpronounceable and decidedly unspellable name, but it is very good and decidedly out of the ordinary. —Philadelphia Press.
